- **Highly experienced content project manager, writer, editor, researcher, technical reviewer and proofreader.**
- **Strong scientific academic background.**
- **Further areas of expertise include social media, internal communications, survey results interpretation, content upload and layout/design.**

#### **EXPERIENCE**

Sara Thomas is a senior associate at Faber. Sara has exceptional skills in re/insurance thought-leadership writing and publication project management. She also has deep industry knowledge from a 25+ year career in re/insurance marketing and corporate communications, built from a solid experience base in underwriting, claims and reporting. Sara is an expert content creator with the skills to plan, write, edit and publish high-quality content on any industry or line of business topic, Non-life and Life & Health. Her track record notably includes producing clear, focused messaging on catastrophe modeling, data analytics and diverse medical risk trends.

Sara joined Faber in 2023 from PartnerRe, where she was Senior Writer & Editor, responsible for producing all the company's research reports, articles and market surveys. She began her career in re/insurance with Commercial Union (now Aviva) in London.

Sara is mother-tongue English and also speaks German. She has a doctorate (D.Phil.) and bachelor (BA) degree in Earth Sciences from the University of Oxford, UK, and is an Associate of the UK's Chartered Insurance Institute (Chartered Insurance Practitioner).
